Social Problems

Untrustworthy Profile 🦹

Current social apps are full with scammers, bots and fake information. Online socializing is getting untrustworthy and dangerous

Web3 is Not Supported 🤷🏻‍♀️

More and more people is entering crypto but existing social apps can't display, verify for web3 users

We Need a Web3 Social App

Trustworthy Profile

- On chain data
- Verified off chain data
- Impression from others

Web3 Friendly

- Display NFT, Tokens, etc.
- Wallet address based account

Label Based Social

- On chain credential label
- On chain portrait label
- Off chain impression label

KnocKnocK

Social Link & Impact

Portrait label

- On chain data analysis
- Impression from friends
- Credentials

SOCIAL IMPACT 87
